

## About Us

Grown in Nepal is an initiative of aQysta to build a reliable and fair value chain between farmers and consumers in Nepal.

We work with farmers from all over Nepal and provide them with a total package of agricultural services, including technology, knowledge, financing, and market access, which allow farmers to increase their income up to 8.4 times. By purchasing through the 'Grown in Nepal' initiative of aQysta, you are directly connecting with farmers and making a positive impact in their lives.

Get all the products you need directly sourced from smallholder farmers.

"ELEVATE YOUR FOODS, AMPLIFY YOUR TASTE"

## Our Expertise

### Product Sourcing and Procurement

Sourcing high-quality produce directly from farms or reliable suppliers. This includes knowledge of seasonal availability, optimal growing conditions, and relationships with farmers to ensure fresh and diverse product offerings.

### Quality Assurance and Food Safety

Expertise in implementing proper quality control measures and ensuring food safety standards throughout the supply chain. This includes regular inspections, proper handling practices, and compliance with relevant regulations to guarantee the produce's safety and freshness.

### Product Knowledge and Culinary Expertise

Deep understanding of various types of fruits and vegetables, including their flavor profiles, culinary uses, and seasonality.

### Growth Partner

Along with providing our expertise in offering fresh products, we also support your marketing and branding, which will help you grow your sales.

### Sustainability Practices

Commit to a greener future with our sustainability farming practices, which include responsibly farming crops, sourced produce, eco-friendly packaging, and waste reduction initiatives.
